

Shenington Kart Results Live Result: Unofficial, penalties may not be added

**Shenington Kart Club**

A Race Result will be displayed here when the system is active on race days, if it is not being displayed then either the system is not in use or the particular race number has not yet been run. This is still experimental though.

Results are provisional and unofficial, timing is unofficial, and may be merely showing the result over the line before any penalties are added. So always check with the official results later in the evening.

RACE No
